Dear Mr. Customer,

Did you know...

County records indicate that you currently have a sub-prime loan?

As a result...

You may be paying too much!!

However...

Countrywide Home Loans, **the nation's #1 and most trusted lender**, can still provide you with affordable financing, even if you have credit problems!

This means...

You can refinance your home without worrying about being cheated by a mortgage broker that you've never heard of before!

So...

If you're not happy with your current loan, or if you just want to see if there's something better, you can protect yourself and your family by calling us today!
